

Volcanoes Valley & Colca Canyon 6D 5N

In this expedition, you will have the opportunity to know fascinating places that will transport you to moments very far from our present. First, the Petroglyphs of Toro Muerto; then the Valley of the Volcanoes in Andahua, this valley is passed by a river, that part of its route it makes traces of lava caves, descending of the lagoon of Chachas towards the one of Mamacohca. The 85 small volcanoes scattered in a relatively small area, make it one of the most volcanic places in the world and finally, you will know the Colca Canyon, considered the deepest of the planet.
